Scores use a consistent evidence-based rubric. Unavailable measurements are excluded from the overall score.

Executive summary

The website crawl found 3 evidence-based opportunities in the collected page and technical signals. External sample metrics were excluded because they do not match the audited host.

Recommendations

Priority	Category	Finding	Fix	Impact	Effort	Verification
HIGH	OnPage	1 of 119 crawled images have no non-empty alt text.	Add concise, descriptive alt text to informative images and empty alt attributes to decorative images.	Medium	Hours	Re-crawl the page and confirm the missing-alt count is reduced.
HIGH	Technical	A sitemap was not found at the checked sitemap locations.	Publish an XML sitemap and reference it from robots.txt.	Medium	Hours	Verify the sitemap URL returns a successful response and is listed in robots.txt.
HIGH	Schema	The crawl found no Schema.org structured-data types.	Add relevant, accurate structured data for the page and business.	Medium	Hours	Use a structured-data validator to confirm the expected Schema.org types are detected.
